

Summer Series #7 July 24, 2018
Hanover High 3.25 mile predicted time

Hello all,

Tonight's summer series run was a 3.25 mile predicted time run. Results were determined by who ran closest to their predicted time. Results below.

The 8th and final run will be in 2 weeks at the Codorus State park band shell area. We are open to suggestions for this years premium for everyone that participated in 7 of the 8 series events. Please reply back with any suggestions.

Also coming up is the Run for the park 5K on Aug. 4th. and Trails 4 Tails on Sept. 22. Plenty of room for runners at both events and we can always use volunteers.

You can find details at <http://sprrhanover.org/>

Thanks to all who helped tonight.

Kev

Runner		Predicted Time	Actual Time	Difference	Place
Miller	Rick	00:31:00	00:30:54	00:00:06	1
McGillvray	Eric	00:27:00	00:27:11	00:00:11	2
